

Report on International Conference

Title : "Artificial Intelligence in Business Innovation "

Description : The Artificial Intelligence in Business Innovation (AIBI-2024) conference, organized by Thomas Adewumi University in collaboration with Ajeenkya DY Patil University (ADYPU), aims to explore the transformative impact of artificial intelligence (AI) on business practices and innovation. This international gathering will bring together business leaders, researchers, and technology experts to discuss the integration of AI in various business models, strategies, and operations. Participants will explore how AI-driven analytics, customer engagement tools, and automation can enhance business performance and competitiveness. The conference will feature keynote presentations from industry pioneers, case studies highlighting successful AI implementations, and interactive sessions aimed at fostering innovation in business processes. Attendees will have the opportunity to network and collaborate on projects that leverage AI to drive growth and sustainability in their respective industries.
