FROM THE PRESIDENT'S DESK

Keeping in mind the necessary lockdown guidelines by the government, this academic year, our university has practiced principally online. Wherein we have had opportunities to collaborate and learn with many universities and educators from across the globe. As we came to a realization that students may feel demotivated due to lack of personal presence for the first time in the history of education, we indulged them into extracurricular activities online as well such as various group sessions, peer-to-peer learning, practicing talents, and voicing opinions leading to empowerment and confidence. These activities focused on personal developments in addition to the traditional education syllabus. Having fully utilized the online platform, our students not only gained education but also developed skills essential for a successful future.

I am delighted by the incredible efforts put forth by faculty and staff to continue engaging and encouraging students in dire times of a global pandemic. Likewise, I am elated by the students' enthusiasm and desire to develop themselves to contribute their skills to the world. Through thick and thin, we continue to demonstrate that we are a connected community functioning towards growth.

Our university is home to an intellectual community built on the foundations of open discourse, innovative learning, evidence-based analysis, and the challenge of engaging a diversity of perspectives.

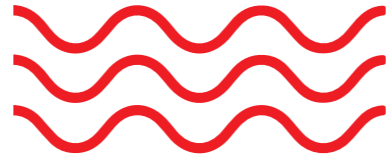

With each day, we are rising to the challenges offered by an ever-changing world, meeting the needs of the time, and anticipating the needs of tomorrow. We are fostering connections in myriad forms considering the spirit of our students to flourish into leaders, thinkers, and innovators.

Our university has generated tremendous momentum for advancement on an accelerated path towards excellence, which is a collaborative effort of the faculty, administrative staff, students, and partners, bringing us closer to achieving our vision.

I would like to thank each and every member of this community for their ensemble contributions.

Dr Ajeenkya D Y Patil
President
Ajeenkya DY Patil University

VICE CHANCELLOR ADDRESS

The structure of ADYPU is foundational to our vision of being the educational institute of choice in the country and that entails being prepared for the upcoming challenges and hardships beforehand. With the experiences we gathered during the last 18 months period, we have excelled in a hybrid model of education to exercise high outputs of productivity both in terms of teaching and administration.

The academic session 2021-22 showed us that we can win any battle that will appear in front of us. The staff and management of ADYPU maintained the knowledge transfer continuum, took the potential of the university to the next level, and because of that in mid-October-November, we started offline classes again. The special care was tested out smoothly during the strict lockdown period and now we're here with vaccinated students and faculty members, all set for their long journey of taking the university to a higher place and motivating everyone around to do the same.

We paced up our approach to stay the best university in the region and bagged 18th Elets World Education Awards-2021 under the category for most Promising Engineering Institute in India, Excellence in Course Curriculum & Design, and Leading University in Innovation by Times. Even with all the obstacles thrown in front of us, we rose above them

and took the student placement and company visits to new heights.

Seeing the campus filled with students bestow us with added zeal to make the system more student-centric, inculcate new innovation strategies in constructive pedagogy and achieve our mission to develop a transformative university community committed to creating a collaborative environment open to the free exchange of ideas influencing the society regionally, nationally, and globally, beyond the traditional borders.

ABOUT THE UNIVERSITY

Ajeenkya DY Patil University is a comprehensive, multidisciplinary, research focused and student-centric institution that is bringing a paradigm shift in higher education in India through its innovative curriculum, interdisciplinary focus, and cross-disciplinary thinking across a wide range of disciplines. The University is building an eco-system of knowledge to promote recognition of the interconnectedness of ideas, systems, and environments in the world inside the campus, and those outside it.

The University has 7 schools including School of Design, School of Film & Media, School of Management, School of Engineering, School of Law, School of Liberal Arts, School of Hotel Management, School of Information Technology and Interdisciplinary PhD Programs.

Strategic Intent

The strategic intent for Ajeenkya DY Patil University is “Always the best”. In the coming five years, ADYPU will be recognized as one of the top institutions in the country for academic excellence in teaching, research, and quality of service. The guiding terms for us shall always be inspiration, intuition, imagination, and innovation. To achieve strategic intent, ADYPU is committed to:

- Create and disseminate knowledge through a range of high-quality academic programs in a student-centered learning environment emphasizing intellectual achievement and employability.
- Work through a matrix of four imperatives in all academic and research pursuits, viz. what is desirable to people, what is feasible through technology, what is viable for business and what is good for society and the environment.
- Create an enabling environment of freedom and responsibility, which stimulates the intellectual capacity of students, faculty, and staff to create opportunities for personal and professional growth.

Teaching & Learning

Ajeenkya DY Patil University is directed toward making this institution highly student-centric. We thrive for innovation and we inculcate in our teaching and learning methods. With advanced pedagogy and unique customized education for students, we transform our processes as per the need of time. The Covid pandemic guided us on how the education sector thrives in the face of adversity and made us shift the education paradigm to the technology-enabled ecosystem.

ADYPU leveraged these months and took hybrid learning to new heights. With online learning, virtual labs, and workshops maintained the education continuum. It helped the students to stay focused and motivated towards the future.

Faculty engages with students in small groups and on a one-to-one basis, to encourage an 'individual response to set briefs. Our teaching and learning processes promote research, experimentation, analysis, evaluation, and self-criticism - all of which assist in arriving at the best possible solutions to a given academic or industrial challenge. Imparting appropriate and transferable practical skills is central to the learning strategy of the program. Initiative and independence is fostered throughout and develops incrementally as the course progresses. Analytical and problem-solving skills are developed using a range of appropriate 'real' and 'theoretical' case studies and problem / task-based learning scenarios. Knowledge is assessed, formatively and summatively, by several methods, including, practical work, individual and group presentations, written coursework, laboratory experimentation, examinations (seen and unseen, open and closed- book). A personal development plan for each student is planned at the beginning of the year which encourages students to set targets for their own personal development under the active guidance and mentoring of an appointed personal mentor.

STUDENT ENGAGEMENT DIVISION

Polaris - The Student Community

Our ever-growing student engagement fraternity motivates branches in multiple talents of all our students. An encouraging environment for budding adults to collaborate, communicate and create. Polaris has been the backbone of student support during dire times of pandemic lockdown, encouraging productivity and providing a college atmosphere at home.

Know Your School

Know Your School was initiated amidst lockdown, to introduce newly admitted students to their respective schools virtually. Know Your School sessions were conducted on the zoom platform. The procedure of introduction was initiated by the faculty member(s) of the school, taking students through the curriculum, activities, and extracurricular activities. Many students engaged in these sessions to clear their doubts, and know their school better. This proved to be highly beneficial in the online situation of education.

Wednesday Wisdom

Wednesday Wisdom, another online initiative to keep students engaged and active, conducted sessions every alternative week with experienced and renowned members of the industry, sharing their insights on their topic of specialization. This provided learning to all students as to how industry professionals work.

ADYPU Edge

Taking inspiration from ott platforms, our university developed an informative and productive platform for video-streaming, calling it the pool of knowledge in a video format, providing an edge to connect with a wider community. Viewers have the opportunity to learn from a wide gamut of topics addressed by experts who share insights, explore concepts, innovative solutions, and practices. The categories involved; Business, Mind, Talent, Food, Multi. The website also includes e-learning videos covering all schools at the university.

Humans of ADYPU - an online social media initiative.

The following is a story-telling social media initiative, introducing individuals and their vivid story, philosophy, and journey. Diving into this initiative, we understand our co-beings better. An inspired concept of a collection of stories from individuals belonging to a particular space. Not only shares the essence of the space but also awarding the intensive colorful nature of human experiences that bring philosophies. Sharing anecdotes from the lives of these colorful personalities, we intend to provide the audience with motivational material.

Open Mic Fridays

Open Mic Friday is a medium of expression for the students of ADYPU. It helps them to nurture their talents and qualities, as well as overcome their stage fright. Open Mic Friday includes public speaking and personality development, where students from various backgrounds and cultures exchange ideas toward an innovative approach to life.

CENTRE OF ADVANCED INDIA STUDIES

Ajeenkya DY Patil University Unveils Centre of Advanced India Studies on its Founder's Day.

On 22nd December 2022, Thursday, Ajeenkya DY Patil University celebrated Founders Day in full zest. On this occasion, Vice Chancellor, Prof. Hrridaysh Deshpande, inaugurated the 'Centre of Advanced Indian Studies' at the University. The CAIS takes shape as an extension of the vision of President Dr Ajeenkya DY Patil.

Ajeenkya DY Patil University (ADYPU) was established under Maharashtra Govt. Act of 2015. The University aims to contribute and to create an Innovation oriented Indian Society by focusing on academic excellence in teaching, research and quality of service. Its purpose is to help transform individuals into the thinkers, dreamers and innovators of tomorrow, and it is proud to call itself an Innovation University. Today the University conducts 78 programs for about 4000 undergraduate, postgraduate and PhD students across its 7 schools of study.

ADYPU is committed to graduating well-educated students who are prepared to meet the challenges of a rapidly changing, increasingly complex world and contribute to global betterment. The University stands firm on the belief that the experience of our glorious tradition is a common heritage of all humankind. One must take insights from its culture and heritage to excel in educational endeavours.

The purpose behind establishing the 'Centre of Advanced Indian Studies' is to put a deep and substantial process in motion. It aims to derive from the rich Indian Knowledge Systems in order to respond to one's current needs while at the same time absorbing intellectual traditions.

At the time of inauguration, Prof. Hrridaysh Deshpande said, "We envisage the teaching and learning in all disciplines, including fundamental sciences and technology, in the Indian context. We believe that while our students must learn from knowledge across the world, they must not be ignorant of our intellectual traditions, our epics, and our practical knowledge. In particular, it would mean a recognition of 'already existing knowledge' in multiple domains: agriculture, textile, architecture, and medicine, to name a few. For us, the purpose of the Centre is as defined in Vishnu Purana: "sa vidya ya vimukte" [What liberates is education],"

The Centre would be an academic centre involving multi-disciplinary research for preserving, documenting, and building upon a philosophic and scientific understanding of Indian Knowledge Systems. This covers diverse areas like agriculture, architecture, metallurgy, metalworking, textiles, and healthcare systems, besides containing living verbal traditions in numerous languages and literature.

It also excels in rigorous theoretical knowledge ranging from astronomy and mathematics to metaphysics, grammar, logic, literature, and linguistics. This is a cumulative body of knowledge, practice, and belief that have evolved through adaptive processes and handed down to generations through a process of cultural transmission. The Centre will be approaching research in these areas.

CIAS would be an online integral educational platform that would translate this research into transferable knowledge in the form of programs and function as a conduit for accessible human-centred education by merging wisdom with technology, tradition with modernity, and wellness with everyday life.

Furthermore, Prof. Hrridaysh Deshpande added, "This initiative of ADYPU aims to target learners according to horizontal and vertical objectives. Horizontally, we target the mind, body, and spirit, and we do so according to six Personal Development domains, which are Spiritual, Moral, Physical, Interpersonal, Emotional, and Cognitive. Vertically, the platform will offer a holistic educational experience via our programs in Leadership & Management, Society, technology & culture, Health & Wellness, Science of Happiness and Philosophy of mind."

In conclusion, ADYPU's initiative, "Centre of Advanced Indian Studies", marks the beginning of a new educational era.

CONTROLLER OF **EXAMINATION OFFICE**

Introduction and Purpose

Ajeenkya DY Patil University is an innovative University that has introduced specific credentials in the examination process for smooth evaluation functioning.

School of Design

1. Detalks

School of design organises online design talk events with industry professionals. It is conducted live on Instagram. The name of the event is DeTalks. Dr Vaibhavvi Ranawaade and Mahanaaz Irani lead these events.

2. Alchemy

School of Design had organised a grand event called Alchemy. This was a display of incredible creation from the Automobile industry. Supercars and bikes. ADYPU School of design had tagged a Design event “ALCHEMY”.The event occurred at Ajeenkya DY Patil University, Pune, from the 21st to the 23rd of April 2022.

ALCHEMY is the first of its kind - Design Fest in Pune involving the design students, practising designers, students looking forward to taking up designing careers and citizens to experience the event “ALCHEMY” - Traverse the multiverse of Design. Other activities planned in this event include - Art Competition, a Design Process, live interaction with guests and a design panel discussion for students, a Campus tour & exhibition for the guests. The event will help in general all curious minds to understand the dream design industry and also allow them to have exposure to the insights of the varied disciplines i.e. Fashion, Graphic, Automotive, Product design etc.

3. School of Design had organized a “President’s Design Challenge”.

4. School of Fashion design organized a workshop called “Button Masala”.

It is difficult to imagine clothes without stitching. Button masala is a simple yet quickly adaptable way of making clothes without any tools and machines. It has developed over the last four years and it started with my explorations for the Lakme fashion week show.

The first concept of button masala was based on a grid system. The buttons were stitched on fabric at two inches. The separate fabric straps had button holes at the same distance as the buttons. The straps were then used to drape the fabric into a garment. In the next development, the buttons were inserted into the fabric and secured with the help of rubber bands. The whole garment can now be made without any machine or tools. Opening the whole garment and restructuring it according to need and size was possible. There has been many more explorations after that in terms of product development with the technique. It is possible to make not just clothes but accessories, curtains, cushion covers, bags, shoes, furniture, and much more with the same method. It is also very easy to learn this technique. In the last 4 years, almost 5000 people have learnt the technique.

5. School of Fashion Design organized an event for prospective students. The students were shown the school and were encouraged to be a student at ADYPU in future. A fashion Swap workshop was conducted in which people were encouraged to donate their old clothes and try other’s donated clothes instead of buying new clothes every time.

6. School of Design organized a craft study visit to the Dastkari Haat Samiti in Pune. This was after a long period of Lockdowns and work from home.

Bharatiya Knowledge Systems

We at Ajeenkya DY Patil University are organising a faculty development program on Bharatiya knowledge systems (BKS). The need for seminar was felt because of general apathy exhibited by Bharatiya academics towards basic facts of aforesaid topic. The steel frame of Macaulay's system had multiplied itself in Bharat and still rules the educated and learned of Bharat. This scheme of affairs has not only ruined the cultural meaning of education vis-a-vis Bharatiya civilisation, with its derivation from materialistic utilitarian principles has put our planet's sustainability in jeopardy. Hence, we have proposed this faculty development program to raise awareness about Bharatiya knowledge systems in general. It will enable faculty members to understand what our glorious civilisation means by education in its totality. It will provide them with factual and critical tools to understand the contribution of Bharatiya to various academic disciplines and meaning of education itself. The program will also focus on how the faculty members participating in program can integrate Bharatiya knowledge systems in their teaching and_ research methodologies. It will also empower them to draft their syllabi in consonance with our civilisational heritage.

As noted British Economist E. F. Schumacher has pointed out, 'the problem of modern education is not material, but metaphysical'. Educators all over Bharat face the problems which cannot be possibly solved through allocating more resources. The disenchantment that flows from this structured teaching of syllabus, rote learning, professional excellence, conformity and imitation and competitive stress has demoralised out brethren and killed our initiative. We know that Bharatiya knowledge systems have many solutions to above mentioned problems and will rekindle our teaching experience with joy, vigour and contentment. We hope that the FDP nudges the participating educators for behavioural change which will reflect in increased self-worth and respect from society as prescribed in our timeless literature. This program will try to inculcate pride, glory and a sense of ownership in the education system which is not only ours since times immemorial. We hope that it also plays the key role in creating better Human Resource for national rejuvenation and resurgence.

After attending this program the participants will be able to:

1. Recognize the limitations of the present educational and knowledge systems prevalent in Bharat from the viewpoint of pressing problems of humanity such as climate change, biodiversity loss, and more.
2. Appreciate the vision of education of the ancient and modern seers and sages.
3. Recognize the Bharatiya worldview and its implication on social and natural sciences, technology and engineering.
4. Interrogate the nuances of the Bharatiya perspective and worldview in their respective areas of teaching and research.
5. Integrate the worldview of Bharatiya knowledge systems in their teaching and research endeavours.
6. Develop the syllabi i.e. course structure, project in harmony with insights of Bharatiya knowledge systems.
7. Design the assessment process in accordance with Bharatiya perspective and worldview.
8. Create the work-environment for guiding professional excellence towards societal development and nation building.

Faculty Achievements (Research & Conference / Publications / Workshops / Seminars)

School of Film & Media Faculty Intellectual & Creative Accolades

Dr Manju Rughwani-Head & Professor was one of the privileged few media academicians who was invited by India's leading animation web portal 'Animation Express.com' flagship event 'EduSpark Summit & Awards 2022' held on May 14, 2022 at Hotel Sahara Star. She was invited as a panel member to deliberate her thoughts on 'Reshaping India's University Education in AVGC Space'.

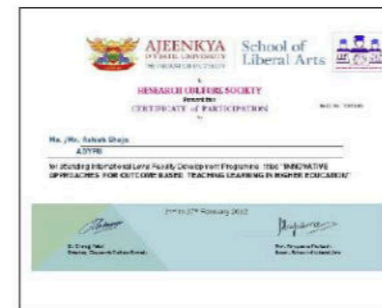

From left to right: Sanjay Khimesara, Mohit Soni, Dr Manju Rughwani, Dr (H.C.) Ankit Jain, Ashish Kulkarni, Kiran Sippy, Jigesh Gajjar, Radha Ambekar and Vipul Saluja

She was fortunate to share the dais with Mohit Soni-CEO-Media & Entertainment Skills Council of India, Kiran Sippy-Managing Director, Ramesh Sippy Entertainment & Film School, Radha Ambekar from LS Raheja School of Arts and the who's who in the education space imparting AVGC education. During the panel discussion, she touched upon the importance of art & media education keeping in mind of the rollout of the National Education Policy. During the event, she had the opportunity to network with the who's who of the animation space to seek new ways of learning opportunities.

Dr Manju Rughwani presented her research paper titled 'The Dynamics of Social Media Storytelling: An Indian Digital Audiences Perspectives' at the First International Conference on Research in Communication & Media-Today's Global Transformation in Communication & Media Studies. Held during August 25-26, 2021, it was hosted by University of Muhammadiyah, Jakarta. Dr Manju Rughwani was privileged and fortunate to be selected as the Chairperson for the fifth Technical Session in ICAN5, (Inclusivity, convergence and Alternate Negotiations-Season 5) the World's First 7-day Hybrid International Conference which was held online on July 5, 2022. She chaired the technical session on 'Metaverse, Artificial Intelligence, Fake News, and Inclusivity in Journalism', where she reviewed and share her critical insights.

Ashish Sheje

Assistant Professor, Animation & Visual Effects

Attended the seven-day International Faculty Development Program titled 'Innovative Approaches for Outcome Based Approaches for Outcome Based Teaching Learning in Higher Education' organized by ADYPU School of Liberal Arts in association with The Research Cultural Society, Pune. (February 21 to 27, 2022).

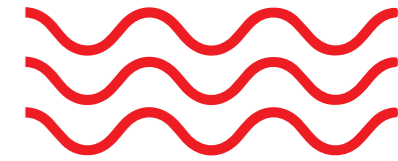

Ketan Deore

Assistant Professor, Animation & Visual Effects

One of our talented faculty Ketan Deore is working on his debut India's first animated first animated/mix media biopic film titled 'Gulabo Sapera'. He shall be donning the hats of a producer, director, animator as well as an actor. This exciting film is based on the life of the Rajasthani Folk Artist-Gulabo's dance form-Kalbelya. Based on the true-life story, this film will spread the message about female foeticide, save the Girl Child and Women Empowerment. His ambitious projects have earned accolades in local regional newspapers.

Ketan has attended and successfully completed AICTE Training and Learning (ATAL) Academy Online Elementary Faculty Development Program on 'Guidance, Counselling & Mentoring' from September 20, 2021, to September 24, 2021 held at Dr Hari Singh Gour Vishwavidyalaya (A Central University) Sagar, Madhya Pradesh,
